## Man Charged as Spy Is Treated at Hospital

AUGUSTA, Ga., May 1 (AP) — A Hungarian native charged with spying has been returned to Georgia for arraignment after undergoing treatment at a Federal hospital in Missouri, officials said today.

Otto Attila Gilbert, 40 years old, arrested here on April 17 for attempting to buy top-secret military information from a soldier at nearby Fort Gordon, was taken to the prison hospital in Springfield on April 20 for treatment of phlebitis in his left leg.

While he was in Missouri, a Federal grand jury in Savannah indicted Mr. Gilbert on four counts of espionage.

United States Attorney Hinton R. Pierce said Mr. Gilbert was returned to the Richmond County jail here Friday night. He said Mr. Gilbert would be arraigned on May 11.
